SUBJECT: **Allegations of Sexual Exploitation/Rape (No. 0215/04)**  
OBJET:

1. In April 2004, the Investigation Task Force (ITF) received information alleging cases of sexual exploitation committed by a staff member of Pristina Airport. According to this information, several female staff members were forced into sexual relations with the staff member driven by threats to their continuing employment at the airport.
2. The IFT investigated these allegations, but the victims failed to provide any corroborating evidence to allow a full investigation by the ITF or for the matter to be referred to judicial authorities for their action.
3. In the absence of such corroboration, the matter has been closed by the ITF.
